

## GENESIS STREAMING SOLUTIONS

*Genesis, the leader in successful webinar production*

**GENESIS' Streaming Media Solution** is a powerful way to reach sales prospects, clients, employees or members. Broadcast audio, video, and/or PowerPoint slides live or on-demand to attendees anywhere in the world with no software downloads or special hardware required.

No matter what type of events you are looking to deliver - Continuing Education, Webinars, Corporate Communications or Product Launches, **Genesis Streaming Media Solution** will make your messages more powerful, clear and effective. Streaming media provides the ability for more frequent communication and delivers multiple benefits to your organization by reducing travel expenses, demonstrating a high-tech image and increasing customer and employee acquisition and retention. You can also offer an on-demand version of your event, making your content accessible and convenient to an even larger audience by allowing them to watch what they want, when they want.

### Benefits

- Unlimited number of participants
- Reduced event and related costs
- Participants can see and hear via a web-enabled computer with sound output
- On-demand playback
- Interactive Q&A sessions through online text messaging
- Polling & surveys provide you with feedback during your live event
